Substance Use Policy

Scope of Policy

This policy applies to students, teachers, auxiliary staff members, users of the school premises, visitors, i.e. every person who enters the building. It is applicable during school-time – including breaks and to ALL school related activities. It applies to the school building and grounds and to any area where a school related activity takes place, e.g. School Tour.

Aims of Policy

The aim of the substance use policy of Scoil Ghormáin Naofa is primary prevention. We aim to protect our pupils from the harmful effects of substance misuse and try to prevent them from using tobacco, alcohol, solvents and illegal drugs. We aim to develop in our pupils' better self-esteem, through providing a positive school climate and atmosphere and through giving our pupils age appropriate information from educational programmes.

Relationship To School's Mission, Vision And Aims

The characteristic spirit of this school has been developed and agreed with our partners in education. This substance use policy reflects the school policy by:

- Drawing together teachers, parents and the school manager, to formulate the policy.
- Including reference to substance use in the enrolment policy.
- Including reference to substance use in our Code of Discipline and School Rules.

Rationale

Why is this policy necessary?

The world in which we live presents young people with many challenges, which affect their health and well-being. Exposure to alcohol, tobacco and drugs is part of this reality. Schools need to reflect upon how they might provide for the needs of their student cohort and respond appropriately to what are sometimes sensitive and emotive issues.

The Education Act 1998 provides that schools should promote the social and personal development of students and provide health education for them. The National Drugs Strategy '*Building on Experience*' is now government policy and it requires schools to have a substance use policy in place. The recent report from the National Advisory Committee on Drugs entitled '*Drug Use Prevention*' (November 2001) underlines the importance of schools developing substance use policies.

The 1999 European School Survey Project on Alcohol and other Drugs (ESPAD) Report highlighted the seriousness of the problem among sixteen year olds in Ireland, as compared to the other 29 ESPAD countries surveyed. Alcohol was identified as being the dominant drug misused in Ireland whilst the use of tobacco and other drugs was above the ESPAD average.

For the population as a whole, alcohol consumption per capita in Ireland has increased by 41% in the period 1989 to 1999, while the other EU Member States showed either a decrease or a modest increase. Ireland now has the second highest per capita consumption of alcohol in the EU.

The school authority in Scoil Ghormáin Naofa has a moral and legal obligation to ensure compliance with the criminal law.

Implementation Procedures

Copies of the policy were distributed to the Manager for ratification in March 2015. When ratified and amended, copies were given to:

- All staff members

The Manager has will take responsibility to monitor procedures annually and ensure they are being adhered to.

Policy Content

Education concerning Substance Use

Education concerning substance use in Scoil Ghormáin Naofa will be provided within the broad context of the subject of Social Personal and Health Education (SPHE) by following our two year plan for SPHE as outlined on our planning grid.

Active learning strategies are advocated in the SPHE curriculum will inform our selection of methodology. Our work will be reinforced by project work and the possibility of talks from local Gardaí and Public Health Nurses as long as the content of their talk is in keeping with the school curriculum on the topic.

Management of Alcohol, Tobacco and Drug Related Incidents

Young people are most at risk in relation to substance use in Scoil Ghormáin Naofa in recreational areas, on the way to and from school and at out of school related activities supervised by staff members of Scoil Ghormáin Naofa.

The school's shared understanding of a 'drug related incident' is:

- Any unusual or unbecoming behaviour resulting from intake or use of alcohol, tobacco or illegal drugs
- The sale or passing on of any illegal substance,
- The possession of alcohol, tobacco or illegal drugs on school grounds or at school related activities
- Disposal of drugs or related items (e.g. syringes) found on school property.

The reporting procedure for such incidents is:

- Step 1:** Witness to drug related incident informs teacher/staff member/Principal
- Step 2:** Principal inform parents/guardians
- Step 3:** Principal informs School Manager.
- Step 4:** Gardaí informed depending on seriousness of incident
- Step 5:** Area Health Board informed for disposal of items

Parents will be involved by accepting the school's Code of Behaviour and Enrolment Policies. They will be informed of an incident involving their own child and will be asked to accept responsibility, co-operate with the school authorities and with the Gardaí if necessary.

Parents will be involved in incidents involving another child only if deemed necessary by the school authorities; if parents are aware that another child is involved in drug-related incidents under the scope of this policy they should inform the teacher, Principal or the School Manager.

The role of the Manager is to:

- Ratify this policy
- Implement this policy
- Monitor and evaluate it
- To sponsor/provide training for staff members
- Make decisions involving critical incidents
- To deal with the media in the event of a critical incident.

This policy puts the following procedures in place to deal with an incident requiring medical intervention:

- ‘Universal Precautions’ will be applied; e.g. wearing of proper protective gloves etc., washing and making safe an area after an incident; provision of a yellow bin to dispose of needles or other unsuitable appliances
- First Aid training has been given to a staff member who is now qualified and certified to assist with medical emergencies
- Copies of all relevant phone numbers are appended (see Appendix 1)
- A local doctor from a local practice has agreed to respond to a medical emergency in the school
- The development of a Critical Incident Policy.

The school has established a rapport with the local Garda station and will invite representatives from the local Garda station to speak with senior pupils. Whether or not to inform the Gardai of minor incidents will be at the discretion of the Principal and the Manager, but they will be involved in any serious substance abuse incidents.

At local level the following support agencies are available to which students involved in substance misuse might be referred:

- N.A. (Narcotics Anonymous)
- Child Care & Family Support Services
- Drug Education Officer
- Drug Helpline **1800 341 900**
- Juvenile Liaison Officer
- Community Garda

In the event of media interest in relation to a ‘drug related incident’, the matter will be referred to the Manager and he will issue a prepared statement to the media.

In the event that a staff member or any other person, referred to above, refuses a reasonable request to remove him/herself from the premises, the Principal and/or Deputy Principal may call the Gardaí to forcibly remove the person in question.

The Manager acknowledges its responsibility in promoting the welfare at work of teachers. An Employee Assistance Service (telephone: 1800 411 057 or e-mail: eas@vhics.ie) is available to teaching staff. In the event that substance abuse appears to be adversely affecting the performance and/or attendance pattern of any member of the teaching staff, the Manager may request such staff member to contact the Employee Assistance Service.

In the event that substance abuse appears to be adversely affecting the performance and/or attendance pattern of any member of the non teaching staff, the Manager may request such staff member to seek counseling or other professional intervention.

All incidents, relating to the presence of persons at school, under the influence of an intoxicant, shall be recorded and reported as soon as possible to the Manager.

The Manager shall consider all such reports and decide on the appropriate action to be taken in the circumstances of each particular case.
